Project Development Phase Model Performance Test

Date	10 November 2022	
Team ID	PNT2022TMID15666	
Project Name	Real Time Communication System For Specially	
	Abled Powered by Al	
Maximum Marks	10 Marks	

Model Performance Testing:

S.No.	Parameter	Values	Screenshot
1.	Model Summary	 It's a Desktop application. User will start video from camera. User will be able to register different signs for further recognition using camera. When user will start recognition activity and give various hand gestures in front of camera, sign will be detected and speech will be produced to announce detected sign.
